## The Objects of the Association

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

**\$100.00 REWARD** will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.

# Introductory

---

**T**HIS Ninth issue of the Lethbridge City Directory, comprising the City proper and all suburbs, is presented to the public with the belief that it will meet the demands of the most exacting and will fulfill the requirements of all its users.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. While the publishers will in no way be held responsible for any errors that may occur, they will be glad to have any inaccuracies brought to their attention, so that they may be corrected in succeeding editions.

The canvass for the present book was made under favorable conditions, with a crew of efficient canvassers, under the immediate supervision of carefully trained examiners.

The results of the canvass were most satisfactory and the manner in which the information checked in, proved the thoroughness of the work.

Upon examination and use as a work of reference, the directory will be found to contain a thorough and complete store of information regarding all the interests of the city. It is devoted to the advancement of all the city's vital interests and has in each issue kept pace with its progress.

The library of city directories which is maintained by the publishers at The Board of Trade offices, for the use of its patrons, has proven a most valuable asset to the City of Lethbridge.

Through the exchange of directories with the various directory libraries throughout the United States and Canada and the sale of the Lethbridge Directory to many institutions, hotels and stores in large cities, the directory is circulated throughout the country and serves as a lasting advertisement for our city.

The canvass for the Lethbridge Directory includes the entire city, so that the name of each person employed should be taken twice; once at the dwelling and again at the place of business. After the canvass has been completed, this information is compiled and it is necessary that there be two slips for each person employed. The information taken at the residence and place of business is compared before the duplicate is laid aside. When a discrepancy is found, a special messenger is dispatched to correct the conflicting information, or if the name has not been taken at both places, to retake it at the home or business place.

The new information is checked with the previous directory and each name in the old directory is accounted for.

It is this careful superintendence and revision which makes the directory estimate of population higher than the census figures.

The directory estimate of population is based on the actual number of names contained in the book, which is multiplied by a common multiple to allow for the married women and small children whose names do not appear.

Based upon the names contained in the pages of this book, it is estimated that the population of Lethbridge is 13,337. Although these figures show a decrease of 1,028 as compared with 1920, they appear highly satisfactory considering conditions in Lethbridge at the time the information was taken.

The publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to express their appreciation for the confidence which the business and professional men of Lethbridge have always shown in their publications.

Respectfully, The Publishers,

**HENDERSON DIRECTORIES ALBERTA, LIMITED.**

September, 1923.

# Lethbridge, Alberta

---

Lethbridge, Alberta, is a city of 13,337 inhabitants, situated fifty miles north of the international boundary line, 764 miles west of Winnipeg. It is a prairie city on the banks of the Old Man River, just east of the Canadian Rockies, on the Crow's Nest Division of the Canadian Pacific Railway, and is the commercial and agricultural centre and supply point of Southern Alberta and the Crow's Nest Pass coal fields. It is the centre of large coal mining operations. The development of coal mining in this vicinity is the largest in Canada, west of Nova Scotia.

The value of co-operation between town and country is nowhere more appreciated than in Lethbridge. The citizens, through the Board of Trade, have ever been active in the interest of the farmer, and anything that would assist in improving farming conditions in any way has always been strongly supported by the Board. Irrigation development, better roads, more convenient railways, proper educational facilities for children in the country are some of the movements in which the people of the city have been identified. It is not from a spirit of altruism that the people of the city have taken part in these and various other movements in favor of their neighbors in the country. In this interrelationship between town and country both the farmer and the citizens have benefitted in many ways.

Lethbridge is spoken of by the travelling public as being the most beautiful of all the prairie cities. It is clean and sanitary. It has three well kept parks covering 303 acres the admiration of all. As the traveller steps off the train, the first thing that greets his view is a park or garden, covering ten acres, or four blocks, in the centre of the city. By getting on the street car and travelling eastward he passes through wide streets bordered by rows of trees and boulevards on each side, until he reaches Henderson Park, which covers 200 acres and contains a beautiful artificial lake nearly a mile long, on which there is sailing, rowing and swimming in the summer, and skating in winter.

The street railway system, owned by the city, stretches over eleven miles, and there are two miles of paved roads.

The lighting system is by electricity supplied by a municipally owned power plant, which is one of the most up-to-date and econo-

mical in Western Canada, the fuel used being supplied by a municipally-owned mine within a stone's throw of the plant. This enables the city to sell electric current for lighting and industrial purposes at very attractive rates.

The telephone system embraces the latest models of automatic phones, and is owned and operated by the Alberta Government. The water supply comes from the Old Man River, which has its headwaters in the Canadian Rockies, and affords a never-failing supply of water. The water comes through an up-to-date filtration system, and is then forced up the banks of the river into large mains and distributed throughout the city. The waterworks are owned and operated by the city.

The city government of Lethbridge has been progressive. Lethbridge is the first city in Western Canada to adopt the Commission form of government. Three commissioners with defined responsibilities, and giving their whole time to official duties, administer all the municipal affairs.

This city has a fine class of school buildings for the 2,700 pupils. The schools are all constructed of brick, with stone or cement foundations. They are equipped with all modern conveniences, and consist of eight public schools, one Roman Catholic separate school, one manual training school, one kindergarten school and one high school. Pupils from the Lethbridge schools have demonstrated the efficiency of the tuition provided by taking premier place in the provincial competitions.

Several churches, representing the various denominations care for the spiritual needs of the people of Lethbridge. Many of the church buildings are quite imposing edifices that would be creditable to the people of a much larger and older city than Lethbridge. The Y.M.C.A. headquarters is a large up-to-date building, with club rooms, swimming pool, dormitories, etc.

The size and style of the public buildings, banks, and many of the office blocks indicates a faith in the future, shared alike by the governments of the Dominion and the Province, the financial concerns, the merchants and the public generally.

The discovery of natural gas has lately provided another valuable attraction for Lethbridge. The city is well piped, the pressure is strong, the quality good and the cost to consumers very low.

This city is situated in the centre of a vast agricultural and coal mining area, and affords ample opportunities for the investor in various lines, such as mining, agriculture, dairying, milling, clay products manufacturer, manufacture of flax products, soap manufacturing and various other lines.

Lethbridge commands the eastern entrance to the Crow's Nest Pass through the Rocky Mountains. Between the city and the mountains, for some seventy-five miles, stretches a fertile plain, the western border of the great prairies. Across this plain the mountains are easily visible from Lethbridge. Eastward the same wonderful prairie stretches to Winnipeg, and southward to the international boundary. The agricultural products of this vast and fertile prairie require an outlet to the Western United States, British Columbia and through the Pacific Coast ports to the world's markets. The most important channel for this commerce is through Lethbridge and the Crow's Nest Pass.

At Lethbridge, mills, elevators, factories, wholesale houses and stores required for the storage, manufacturing, marketing and shipping of this growing business are being provided as the traffic develops. The Canadian Pacific Railway completed its lines through the Crow's Nest Pass to Vancouver in 1916. This route from Winnipeg to Vancouver through Lethbridge and the Crow's Nest is shorter than the line through Calgary and the Kicking Horse Pass. The line through the Crow's Nest to the Kootenay and the Columbia Valley country of British Columbia and via Kingsgate to the States of Washington, Oregon and California now serves a large and growing traffic.

Fruit, produce, forest and mineral products from three localities, the imported merchandise intended for consumption by the rapidly increasing population of the great prairies are finding Lethbridge the logical gateway and the most convenient point for storage, assembling, assorting, marketing and reshipping.

Lethbridge is likewise in command of a most important railway line to and from the United States via Coutts. The freer trade relations between Canada and the United States constantly promote the importance of this traffic. Lethbridge will also presently command the short line via Weyburn and Portal to and from Northwestern Canada and the Dakotas, Minnesota and the Central United States.

### **COAL MINING**

The coal production from mines within nine miles of the city of Lethbridge during the busy season is as high as 4,000 tons daily. About two thousand men are employed in these mines the monthly payroll is in excess of \$300,000. Lethbridge is also the natural gateway and distributing point for the Crow's Nest Coal field where about two million tons of bituminous coal is produced annually.

### **AGRICULTURE**

Agriculture is making rapid progress in the districts surrounding Lethbridge. There have been adverse seasons through occasional shortage of rainfall, and the farmers have thoroughly learned the

lessons regarding the proper cultivation required to meet these climatic conditions. The Canadian Government Experimental Farm just outside the city limits, is under the competent management of Mr. W. H. Fairfield, whose great experience is always freely at the service of the farming community. Grain farming and live stock raising are carried on with great success on the prairie lands, much of which are still unoccupied and for sale at very low prices; while farming and stock raising and feeding operations on the 100,000 acres of irrigated land close to the city are also highly successful.

The grain crop in 1915 was phenomenal in volume. Some 39,000,000 bushels of grain, valued at over \$50,000,000, were shipped from the Lethbridge district in that year, the yields of wheat from individual farms averaging about 50 bushels per acre. The yields in 1916 were also high, the average for wheat being 30 to 35 bushels per acre. In 1917 and 1918, owing to the smaller rain and snowfall, the yields were good, although not so heavy. The year 1919 was a year of short precipitation which told upon the grain crop yield. In 1920, however, the rainfalls came at opportune times, and just before harvesting in August it was anticipated that the railway district in the Lethbridge division of the C. P. R. would produce at least 22,000,000 bushels of wheat as well as about 15,000,000 bushels of other grains—oats, barley, flax and winter rye, the last named having been discovered to be particularly successful for cultivation and yield. The district holds the world's record for the production of wheat; in 1916 the Nobleford Farm, eighteen miles from Lethbridge, recorded a yield of 54,395 bushels from a thousand acres. The yields of barley and oats have also been prolific, and, like the wheat, of the very highest quality.

On the Lethbridge division the 1922 crop is estimated as follows—

Wheat .....	22,175,000 bushels
Oats, Barley and Rye..	2,500,000 bushels

To the end of December 22,088,000 bushels of grain had been shipped. Unfortunately there is very little moisture in the soil for next year and a great deal will depend on the Spring rains. The area under summerfallow will not exceed last year's acreage.

The irrigated lands are largely planted to alfalfa, producing an average  $4\frac{1}{4}$  to 5 tons per acre from these cuttings per season.

The Board of Trade is one of the most active bodies of its kind in Canada. It keeps the farming community and the business men in close touch with each other and does a great deal to further the interests of both.

Farming under irrigation has proved successful and profitable in the areas east and south of Lethbridge where it has been increasingly practiced during the past fifteen to twenty years.

Farming under irrigation, while it must make agricultural operations more intensive, leading to the use of less land per unit of labor, provides against the lack of moisture, and leads to the maintenance of the fertility of the soil.

One of the most profitable crops under irrigation is alfalfa, which is in itself a humus-builder and a nitrogen provider.

The Lethbridge Northern Irrigation District, which will draw its water from the Old Man river—an all-Canadian stream—is absolutely prepared to proceed at once with construction work just as soon as financing can be arranged. Every detail has been carefully studied by the Reclamation Service of Canada. At the instance of the Alberta Government the proposed project has been reported upon by George G. Anderson, an irrigation engineer of continental repute, having great practical experience both in the United States and Canada, who thoroughly understands all the engineering, financial, agricultural and human elements involved. The water supply at the very lowest stream measurements over a long series of years is guaranteed. There are no engineering works of any magnitude necessary.

The farmers who own the 110,000 acres that will be irrigable under the project are most anxious that construction should be proceeded with at once. Estimates of cost, generously conceived even at the present prices for labor and materials, indicate that when tenders are called for they will show that the work can be carried through to a finish at a capital cost of less than \$50 per irrigable acre. That the farmers will amply be able to pay the interest, and repay the capital on this expenditure during a term of say thirty years is clearly demonstrated by the comparative results in crops grown on dry land and irrigated land at the Experimental Farm, Lethbridge.

Taking wheat alone as an index, wheat production on "dry" land averages 30 bushels per acre, which, allowing for summer-fallowing half the acreage each year, gives 15 bushels annually, against 53 bushels annually on irrigated land—an increase of  $3\frac{1}{2}$  times in production. Even at pre-war prices of around 80 cents a bushel, and cutting down the estimated production to 40 bushels, there would be a gross return of \$32 per acre per annum. Or, again, figuring in terms of alfalfa at the low rate of  $3\frac{1}{2}$  tons per acre at say \$10 per ton, there would be a gross return of \$35 per acre annually.

The Alberta Government has opened communication with the Dominion Government with a view to evolving means whereby the Governments may collaborate on some plan to finance the District. In the House of Commons shortly before Parliament prorogued, the Minister of the Interior disclosed a sympathetic attitude towards the reception of such proposals; and the result of these communications is awaited with the greatest anxiety by all the people in Southern

Alberta, but much more by these farmers who have suffered so great loss from soil-drifting, and whose lands fail to be irrigated under the District.

The progress of the Lethbridge Northern is looked upon as the keystone to further irrigation development. The lands now under irrigation around Lethbridge, roughly 100,000 acres, made a gross production record in 1919 of \$54.71 per acre.

There are three other districts whose lands can be watered, like the Lethbridge Northern, from all-Canadian streams. They are the United District, west of Cardston, 15,000 acres irrigable; the Lone Rock, north of that, 10,000 acres; and the South Macleod, 30,000 acres.

The Dominion Reclamation Service is completing surveys on some of these, as well as on lands around Lomond, Travers, Enchant, and Sundial, northeast of Lethbridge, which may get water for 100,000 acres on an extension of the Lethbridge Northern canals.

In addition to these, irrigation may be carried to great areas south and east of Lethbridge, roughly 400,000 acres, from the waters of the St. Mary's and Milk Rivers; but these streams are not all-Canadian and the question of the division of the use of the waters is now under discussion and adjudication between United States and Canada before the International Joint Commission.

### **OIL DEVELOPMENT**

Possibly no subject in Western Canada is creating more interest today than the search for oil in Southern Alberta. Some five wells are now actually being drilled on the Alberta side of the line and the work is being watched with intense interest. The McLean well is down to a depth of 2,550 feet and the Baalim well is below the 2,000-foot level. Great credit is due to all the men who have invested their money in the various operations for the courage and initiative they have displayed in their efforts to find a commercial body of oil.

On the Montana side of the International line, there are said to be some twenty-seven wells producing at the present time and about seventy rigs drilling. It is confidently hoped that the oil bearing field extends well into Alberta. An application has been made during the past year to have the Government allow the free entry into Canada of oil drilling machinery.

### **IMPORTANT FACTS ABOUT LETHBRIDGE**

Population 13,000. Altitude 2,950 feet.

8 Public Schools. 12 Churches

7 Banks. 4 Hospitals.

Public Library. \$75,000.00 Y. M. C. A.

3 Parks, covering 303 acres.

\$100,000.00 Municipally Owned Exhibition Buildings.

\$100,000.00 modern Filtration Plant.  
 36 miles of wide, graded streets.  
 40 miles of Sewers and Water Mains.  
 11 Miles of Street Car Lines—5c fares.  
 Cluster Lighting System in central business district.  
 Straight Commission Form of Government.  
 Municipal Owned Public Utilities.  
 Natural Gas for Heat and Power.  
 Average Monthly Mines and Railway Pay Roll, \$350,000.00  
 Division Point of Canadian Pacific Railway Company with lines running North, South, East and West.  
 17 Passenger Trains in and out Daily.  
 38 miles of track in Local Railway Yard.  
 89 Manufacturing, Wholesale and Distributing Firms.  
 85 Towns within Trade Territory.  
 Population served in Trade Territory, 100,000.  
 District Headquarters  
     Royal Canadian Mounted Police.  
     Alberta Provincial Police.  
     Alberta Government Telephones.  
     Alberta Irrigation Council.  
 Headquarters Lethbridge Northern Irr. Project.  
 Dominion Government Experimental Farm.  
 Southern Alberta Wool Growers Association.  
     60,000 acres coal land.  
     280,000 acres irrigated land  
     300,000 acres proposed irrigation  
     7,000,000 acres farm and ranch lands.  
 On the following Tourist Automobile Highways, viz.: All Red Route, "Transcontinental"; Blue Trail, "International"; Sunshine Trail, "International."

# Educational Information

## LETHBRIDGE PUBLIC SCHOOL TRUSTEES

Elected at large. Meets every second and fourth Thursdays in Board Room, Central School 9th St. S. bet 5th & 6th Aves. S.

Secretary-Treasurer—J. H. Fleetwood, Central School

Superintendent—J. E. Hodgson

Medical Officer—Dr. D. A. Taylor

Chairman, W. A. Hamilton; J. E. Terrill, Dr. Lovering, Dr. Thompson, J. H. Westbrook: Secretary-Treasurer, J. H. Fleetwood.

### Standing Committees

The chairman of the Board is a member ex-officio of all committees.

Finance—J. H. Westbrook, R. B. C. Thomson

Buildings—R. B. C. Thomson, J. E. Lovering

Supply—J. E. Lovering, J. E. Terrill

School Management—J. E. Terrill, chairman, and whole Board

## SCHOOL ENROLMENT

Public Schools and High School.....	2,198
Separate School .....	520

### Central School

Ninth Street South between Fifth Ave. S. and Sixth Ave. S.

Principal—James A. Davidson

Vice-Principal—Philip Collins

### Fleetwood School

Ninth Ave. and Twelfth St. S.

Principal—C. E. Brandow

### High School

Fifth Ave. S. between Eighth and Ninth Sts. S.

Principal—J. E. Hodgson

### Westminster School

East Side Thirteenth St. N. between Fourth and Fifth Aves. N

Principal—H. H. Bruce

### Galbraith School

Seventeenth St. and Ninth Ave. S.

Principal—Miss Alice J. Birch

### Kindergarten School

w s Ninth St. S. cor Fifth Ave.

## **CATHOLIC SEPARATE SCHOOL TRUSTEES**

Chairman—G. E. A. Rice, J. K. Smith, Thomas Long, John Petrunia  
and D. J. McSwain.

Secretary-Treasurer—D. J. McSwain

### **St. Basil's School**

West Side Twelfth St. B North near Seventh Ave. N.

Principal—Sister Auroy Fortier

### **Ruthenian School**

1401 Fifth Avenue N.

Principal—Wm Sopto

### **St. Aloysius School**

820 2nd Ave. S.

Principal—Sister J. Corish

### **St. Aloysius Convent**

116 9th St. S.

---

## **Miscellaneous Information**

### **OFFICERS AND COUNCIL OF THE LETHBRIDGE BOARD OF TRADE FOR 1923**

President—S. J. Shepherd.

Vice-presidents—S. G. Porter and G. B. Morris

Secretary-treasurer—J. S. Rose.

Wholesale—Geo. Cope.

Retail—Chairman Retail Merchants' Association.

Mining—R. Livingstone.

Milling—Geo. W. Green.

Lumber—D. R. Yates.

Professional—E. C. McKenzie.

Building and Contracting—J. W. Marnoch.

Real Estate—T. M. Huff.

Agricultural—W. H. Fairfield.

Rural Relations—O. T. Lathrop.

Finance—G. J. Hunter

Freight Rates—J. B. Turney.

Railways and Transportation—H. G. Clarke.

Municipal and Civic Improvements—F. W. Downer.

Highways and Bridges—J. W. McNicol.

Membership—J. F. Simpson.

Industrial—W. L. Ogden.

New Enterprises and Publicity—J. S. Kirkham.

Entertainment—J. W. Bawden.  
Educational—A. B. Hogg.  
Automobile—A. G. Baalim

### **PARKS AND RECREATION GROUNDS**

Henderson Park—6th Ave. S. near Exhibition Grounds  
Galt Park—3rd Ave. S. bet. 5th and 7th Sts. S.  
Adams Park—13th St. N. cor. 8th Ave. N.  
Lethbridge Exhibition Grounds—6th Ave. S. near Henderson Park

## **The Objects of the Association**

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory Business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

---

**\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing collecting or canvassing for any fraudulent or "fake" Directory.**
